

EDA NENDO, 2009

Vaso: realizzato in ceramica a pasta bianca; ottenuto tramite "colata" in stampo, poi sottoposto ad una prima fase di cottura in forno e successiva smaltatura con colore bianco (internamente eseguita a bagno ed esternamente a spruzzo con aerografo) e ciclo di cottura finale.

Aste: tondini in metallo trafilato diam.10/5mm verniciati a polvere più strato di vernice trasparente opaca antigraffio. Colore bianco RAL9003.

Vase: produced in white earthenware; the blank is slipcasted and receives the first firing with a further glaze application in white colour (the internal coating is achieved by dipping process and the external coating is applied through a spray-gun) and the second final firing

Hangers: metal rods \varnothing 10/5 mm, powder varnished, finished with transparent anti-scratch mat varnish. Colour white (RAL9003).
