

ARKETIPO

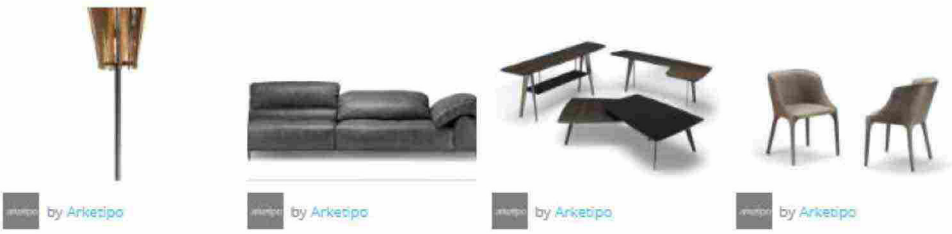

Arketipo, member of the association ADI (Industrial Design Association) since 2007, was founded by a group of some Tuscan entrepreneurs in 1982 and since then proposes and creates upholstery of refined design. Its products combine top quality with attention to detail and a vibrant and contemporary image. During the last years, its main goal has been brand reinforcement, relaunching and repositioning the brand in the high end sector of the market. This position allows **Arketipo** to offer to specialist retailers a collection combining high level design and quality reflecting the Tuscan textile manufacturing ethos that has developed a unique `savoir faire` renowned all over the world.

Since 2008 the offer has been enlarged: as well as sofas and armchairs a collection of accessories has been introduced. These accessories permit the realization of complete, elegant, sophisticated but also functional and cosy living rooms.
