[FOLLOW](#)

30-Apr-2015

Classic lines and details of contemporary taste are the main features of this romantic and elegant chair. It is available in two versions: DUO (leather +leather) and MATCH (leather +fabric). In the first version leathers of different colours or types can be used for the outer structure and for the inner parts (internal back and seat); in the second version, leather is used to upholster the frame and fabric is used for the seat cushion.
