'GREENWICH' TABLE ▲

by Maurizio Manzoni & Roberto Tapinassi

With a sculptural base inspired by the Greenwich meridian, Manzoni and Tapinassi's dining table for *Arketipo* is a strong and commanding design. An off-centre bronze or titanium ring that loops around the sweeping wood base provides stability while referencing the crossing lines of longitude and latitude. The frame is available in a variety of noble hardwoods including walnut, ash or ramin. *'Greenwich' table*, €5,064, by Manzoni & Tapinassi, for *Arketipo*, www.arketipo.com
