ARKETIPO

Packed with new proposals, the **Arketipo** stand was unveiled this year with Auto-reverse by Giuseppe Viganò. The thin structure, elegant and discreet, enwraps and contains the seat

cushions, the back and the arms, emphasized by flounces all around the perimeter which grant a definite movement to the line and add a tactile and visual softness to the sofa. The Windsor Dream bed (Manzoni, Tapinassi), a masterpiece in design, maintains the correct balance between classic and modern style, characteristic of the sofas in the range.

CACCARO

Underlying Caccaro operations there are simple concepts: careful but functional design, research into technologies and industrial production processes blending with the craftsman's know-how and attention and care for the materials used. A path that has never strayed from gua-

ranteeing the company's success and identity: a benchmark in bedrooms. In order to bring out the full quality of this material, the company has brought the open pore finish technology to its maximum expression, with the use of water-based products that are safe and environmentally friendly in the painting processes.
